

MD-2017 and RT82 Ty Firmware Beta

Ty Weaver alternative FW for MD 2017 and RT82. GPS and Non GPS

1. Update Radio to stock firmware for 100,000 contacts.

You will find this at the [MD-2017](#) or [RT82](#) website

Firmware upgrade tool with Original Firmware downloads

2. Via CPS add *ANY* Contact CSV

3. Update with Ty Firmware

<http://www.retevis.com/resources-center>

Retevis Alternative RT82 Firmware

Download RT82 nonGPS - EXXT Firmware

Download RT82 GPS - EXXT Firmware

Note: It's a RT82 alternative firmware, beta version, mainly for hams. So think twice before you download and upgrade. We will continue to improve it.

Also the radio may say it has no contacts.

Just enable it anyway, as they still show up when people talk.

If you need EXCEL (DO NOT BUY)

Download a trial version FREE (2013 or later version)

After 30 days it will expire but that does not matter
