

# Multiple DMR BrandMeister ID Numbers

You only need one ID number.  
[Registration](#) for a ID Number.

**When using Multiple DV Devices.  
OpenSpot, ZumSpot or DVMega  
*Does not work on a DV4mini***

You will have your 7 Dig ID that will be used in all your DMR radios

In the DV devices if running more that one you can now do this.

First Device your 7 dig ID.

Second Device add your 7 dig ID but add 00 to 99 on the end to make a 9 Dig ID

More Devices take the last number up by 01

*(This will give you 100 IDs)*

**Each Hotspot must have its own separate frequencies or Colour Code  
*This is to stop Looping***

**434.000 Low Power Non-NoV Personal Hot-Spot usage**

**438.800 Low Power Non-NoV Personal Hot-Spot usage**

**Recommendation of Frequencies to use.** Bandwidth of 25 kHz

## **Simplex HotSpot Freq**

434.6000 to 434.9800
