

# Reflectors being turned off.

## Talk Group restructure for BrandMeister United Kingdom

BrandMeister United Kingdom is moving from a Reflector System to a Talk Group System.

This means all regions in the United Kingdom need to be allocated Talk Groups.

Also this has to be done in a way that all radios do not need to have a new codeplug made up to keep on using BrandMeister United Kingdom at this time.

You will see below the main layout has not changed and new regions have been created to allocate them Talk Groups.

New regions added is Scotland, Yorkshire, Anglia and a London & Isle Of Man Talk Group. Names changes have also had to be made to fit into this new structure.

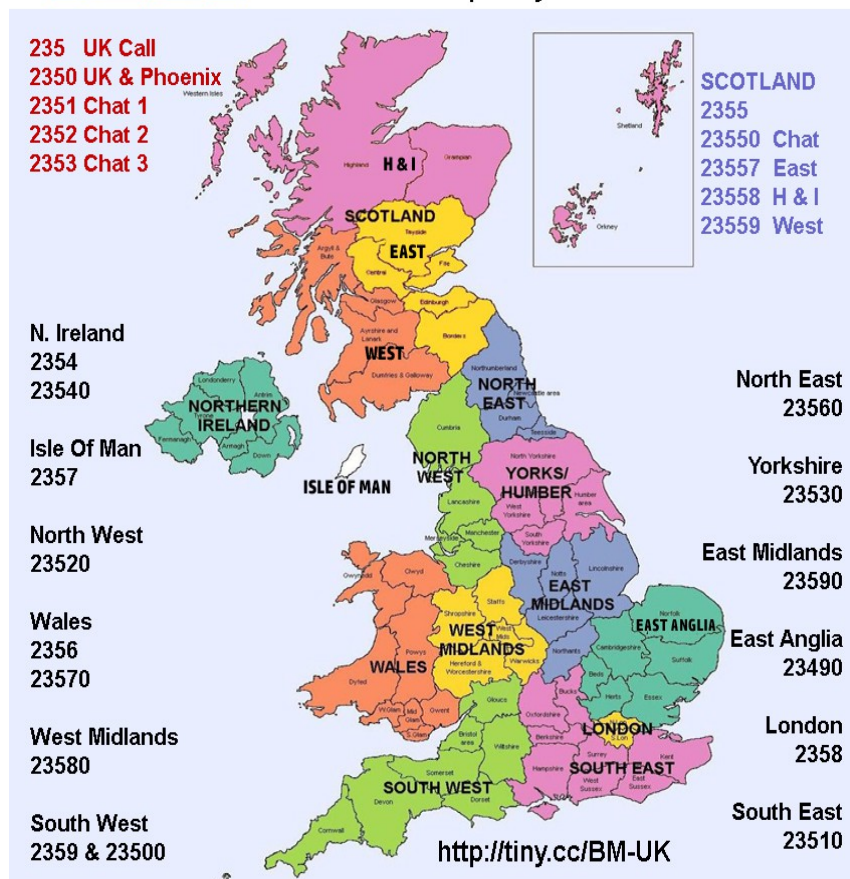

This Diagram shows the New allocation of Talk Groups.

## United Kingdom Talk Groups

# BrandMeister

<http://tiny.cc/BM-UK>

Each region has a block off 10 Talk Group.  
One main Talk Group that is Named (example 23530 Yorkshire)

The 9 Sub Talk Groups is NOT Named

The naming is done Locally and should be displayed on local Repeater websites, Facebook groups etc. Like [DMR Scotland](#) and [GB7FR](#) and [GB7DJ](#)

This means that no one person, club, group etc can own a Talk Group or have it named on the BrandMeister system.

The 9 Sub Talk Groups is to be shared within your region fairly and by consent off Repeater Keepers and users of Repeaters.

New Talk Group structure and names.

Main -

235 - United Kingdom Call - QSY to 2351 or 2352 **Rename**

**2350** - United Kingdom & [Phoenix](#) - QSY to 2353 **Rename**

23575 - SALOP Cluster (New)

235907 - Jota UK

Red Talk Groups is Linked already to Phoenix UK Network.

You can keep on using the Talk Groups that you have in your radios. But over time we hope when you reprogram them, you will update to the New Structure.

The changes also mean we have a an organised structure to the Talk Groups for end users to follow and program Radios.

Turning off Reflectors.

This was not down to BrandMeister United Kingdom Admin, but by BrandMeister Global

<https://news.brandmeister.network/brandmeister-dmr-reflectors-support-ending-by-end-of-2020/>

BrandMeister United Kingdom Admins and the United Kingdom Repeaters have been working hard together to bring users this New Simple Structure of Talk Groups.

22 Named Talk Groups that will let you talk all over the United Kingdom with each other.

A simple clean Structure to get us all using Talk Groups.

A NEW BrandMeister United Kingdom Wiki page has also been made to keep all users up to date and will be regularly updated if required.

You will see it covers many aspects on BrandMeister United Kingdom to help you get started on DMR and using the Network.
